5th August 2026

Dear Joanne,

**Part A2 Permit Application:
Lowfield Timber Frames, Marton, Near Welshpool, Powys SY21 8JX**

I am pleased to submit a Part A2 permit application for a wood preservation activity for Lowfield Timber Frames. The digital application pack comprises:

- Lowfield Timber - A2 Application Form
- Lowfield Timber - A2 Technical Application
- Lowfield Timber - Non-Technical Summary
- Lowfield Timber - Maps & Plans
- Appendix 1 - MSDS
- Appendix 2 - Annual Report & Statement of Site Condition
- Appendix 3 - Monitoring Wells Desk Study
- Appendix 4 - Permit Surrender Plan
- Appendix 5 - BAT 30 EMS
- Appendix 6 - Training Evidence (please redact names if placing on public register)
- Appendix 7 - Lowfield Timber BAT Assessment

The Operator looks forward to receiving an invoice for the permit application fee, which will be paid on receipt. Please see Section F of the application form for invoicing details. I would be obliged if you would send confirmation of a 'duly made' application to me on receipt of the payment.

The Operator is keen to undertake soil and groundwater for the completion of the baseline report during the determination period. The groundworks and analysis is at some considerable expense, and we would like to ensure that this is done with your approval. The sampling proposals are detailed in Section 8 of the permit Technical Application document and Appendix 3 - Monitoring Wells Desk Study. I would be obliged if we could agree the soil and groundwater monitoring proposals at your earliest convenience.

If you have any technical questions, or if there are any matters arising on receipt of this application, please let me know.

Yours sincerely,

Fay Rushby, BSc, MSc, MCIEH
Environmental Health Officer & Director
